

# Evolutionary Language Science

## Specialized Mono 120 ECTS Credits

The sample curriculum shows one of several ways in which you can plan your studies. It represents a full-time study load of 4 semesters.

Generally, you will earn approximately 30 ECTS credits per semester. It is also possible to earn a lower amount of ECTS credits per semester. In this case, the duration of your studies will be extended accordingly.

The Mono in Evolutionary Language Science can be started only in the Fall Semester.

| Fall Semester   | Spring Semester | Fall Semester   | Spring Semester |
|---|-----------------|---|-----------------|
| <b>Modulgruppe: Foundations and Methods</b><br>Interdisciplinary Primer on Language Evolution Research (C 6)<br>Introduction to Evolutionary Language Science (C 3)<br>Statistical Methods for Evolutionary Language Science (C 6)  |                 |   |                 |
| <b>Module Group: Phylogeny of Communication</b><br><b>Module Group: Language Change over Millennia</b><br><b>Module Group: Language in the Future</b><br><b>Module Group: Mathematical and Scripting Methods</b><br>Modules of free choice (CE or E 45), based on individual study plan |                 |   |                 |
|   |                 | <b>Modulgruppe: Research Related Competences</b><br>Research Related Competences (C 30) |                 |
|   |                 | <b>Modulgruppe: Abschluss</b><br>Master's Thesis (C 30)                                 |                 |
